Participating students and teachers from the International School of Havana.

REPORT OF THE DIRECTOR

I. INTRODUCTION

I am pleased to announce that over 158,000 students from more than 2,300 schools participated in the 2003 AMC 8 contest. Many dedicated mathematics teachers provided an opportunity for students to participate in this national exam. Our State Directors did a great job soliciting enrollment, and the Committee created an exam which was both “exciting and challenging.” A hearty thanks to all of you for continuing to recognize the fact that the AMC 8 plays a complementary role in support of the junior high/middle school mathematics curriculum.

II. GENERAL RESULTS

This summary includes a listing of the results and awards associated with the 19th annual AMC 8, which was held on Tuesday, November 18, 2003. PLEASE NOTE THAT THE 2004 AMC 8 WILL BE HELD ON TUESDAY, NOVEMBER 16th.

From the responses received from many of the contest managers, it is evident that the examination was once again well received by the students and teachers. A sample of specific comments received is found in the Quotations section of this summary.

A comparison of the statistics shows that this year’s 2003 contest was comparable to the 2002. A total of 192 perfect scores were recorded (127 in 2002) while the national average decreased to 10.27 (11.09 in 2002). The AMC 8 Committee is in its final stage of preparation of the 2004 exam and I expect it to be similar to the 2003 edition, but still challenging.

A four-year statistical comparison of results is given in Section III. We sincerely hope that your school administrators will continue to support your future requests for funds to enable your students to participate in this academic activity which is consistent with the standards set by the *National Council of Teachers of Mathematics*.

On behalf of the AMC 8 committee, I express my appreciation to all of the school contest managers and their associated teachers, school counselors and administrators for providing an opportunity for their students to participate in the 2003 AMC 8. I particularly would like to express my gratitude to those teachers who personally paid the fees associated with the contest. Their dedication to the profession is certainly noteworthy and beyond the call of duty.

III. STATISTICAL ANALYSIS OF RESULTS

Report Of The Director continued

A FOUR YEAR COMPARISON

Please note that the word “recorded” used throughout this section should be interpreted as indicating that the results are based on only the items that were mark-sensed by the students. Some of the students failed to mark items such as their grade or gender.

SCHOOL & STUDENT REGISTRATIONS & AVERAGES

	2003	2002	2001	2000
Registered schools	2,396	2,493	3,176	3,523
Registered students	183,830	188,530	203,170	249,260
Schools sending in results	2,737	2,390	2,600	3,362
Answer forms received	158,309	157,778	169,654	204,687
Recorded female participants	75,574	75,880	81,482	98,899
Recorded male participants	80,010	78,825	84,888	103,668
Average of all participants	10.27	11.09	10.00	8.66
Average of female participants	9.72	10.47	9.39	8.20
Average of male participants	10.79	11.68	10.60	10.93
Perfect papers	192	126	84	58

PARTICIPATION BY RECORDED GRADE LEVELS

GRADE	2003	2002	2001	2000	1999
4 & 5	1,553	1,560	1,736	3,122	1,082
6	15,414	14,707	14,710	18,628	16,689
7	53,170	53,804	58,271	69,146	73,511
8	86,542	85,351	93,090	113,061	110,252

AVERAGE SCORE BY RECORDED GRADE LEVELS

GRADE	2003	2002	2001	2000	1999
4 & 5	7.62	7.76	6.73	6.35	7.11
6	8.58	9.31	8.28	7.27	8.46
7	9.77	10.59	9.49	8.13	9.77
8	10.93	11.79	10.66	9.28	11.39

There were a total of 1,971 school winners at 2,396 schools, and the following number of certificates were sent to schools: Gold – 8,004, Silver– 10,079, Bronze– 12,163. While the AMC 8 is primarily intramural, the national results make some comparison at that level viable, but the examination, which has no established norms, is comparable to neither classroom nor placement tests. *The AMC 8 answer forms are retained for only 8 weeks after the exam.*

IV. SCHOOL PLAQUE/NAMEPLATES

Many schools have continued to keep their school award plaque updated with

Report Of The Director continued

the name of their school winner. A plaque/nameplate order form was enclosed with your school results, however, if you no longer have this form in hand you may contact our distributor directly at rixstinetrophy.com or you may find it more convenient or timely to seek out a local engraver. Either way we encourage those schools who possess this plaque to continue the tradition of recognizing their mathematically talented students.

V. 2003 STATE TOP STUDENT PLAQUE

This year we are presenting 181 Top Student Plaque awards. This plaque is awarded to the top scoring student in each state, from all of the U.S. Territories and schools abroad, and from Canada. This student award program which began in 1991, will continue to be presented on an annual basis. Each of our State Directors is asked to arrange for the Governor of the State to present the plaque to the state recipient. You will note, in this Summary are photos of some of last year's awardees.

VI. AREA OF PARTICIPATION

Participation in the AMC 8 extends beyond the USA. Registrations were received from 40 APO/FPO Schools (Junior High or Middle Schools associated with U.S. military bases abroad), American schools associated with U.S. Embassies, U.S. Territories (Guam, Puerto Rico and the Virgin Islands), Canadian, and foreign schools (including a group of 462 schools from Taiwan), for a total of 6,444 students. Recognition is hereby given to those teachers abroad who have provided an opportunity for their students to participate in the AMC 8. A complete list of participating schools from foreign countries and U.S. territories is found in this summary. We are grateful to the Department of Defense for providing the financial support which enabled the students in its dependent schools to participate in the AMC 8.

VII. DATE AND FORMAT OF THE 2004 AMC 8

The date of the 2004 AMC 8 is Tuesday, November 16. The exam will again be a 40-minute, twenty-five question, multiple-choice contest. The scoring procedure will be the same as in 2003: one point will be given for each correct answer. Registration materials will be mailed to schools during the months of May, September, and October. If you wish to register now, a 2004 Registration Form has been included in this Summary on Page 143. We hope that your school will participate again in the 2004 AMC 8.

Please complete your registration as early as possible. Contest materials will be mailed in October and early November, so there is ample time for planning and completion of pre-contest activities. We would be most grateful to you if you would encourage neighboring schools to participate in the AMC 8.

The National Association of Secondary School Principals continues to place the AMC 8 on its advisory list of contests and activities for 2004-2005.

Report Of The Director continued

VIII. ACKNOWLEDGEMENT

We are fortunate to have dedicated staff members who fulfill the responsibilities associated with the entire examination process in a timely and efficient manner. One can imagine all of the expected and unexpected duties and operations that must be completed during the examination year. AMC staff members include Donita Bowers, Marsha Conley, Rachele Jensen, Linda McCormick, Joyce McNeil, RuthAnn Royer, Sawan Mohamed, Kay Michael, and Janet Sylvester. Our University student helpers are Lindsey Domangue, Tuan Le, Erin Johnson, Justin DeVries and Gabe Smith. I welcome this opportunity to commend their excellent work.

IX. RETIREMENT

Last spring Richard “Dick” Gibbs stepped down as Chair of the CAMC (Committee of the American Mathematics Competitions). He had been Chair for two terms, and has seen us through all our recent changes and additions. We express our gratitude to him for all his hard work and dedication.

X. STATE DIRECTORS, SPONSORS, DONORS AND COMMITTEES

In this summary you will find a list of the AMC 8 State Directors, sponsors, donors, members of the Committee on the American Mathematics Competitions (CAMC), and AMC 8 committee. In addition, the members of the American Mathematics Competitions (AMC) Panel are listed, and they are hereby recognized for submitting and reviewing potential problems for the examinations of the AMC. The work of the State Directors is significant to the success of the AMC 8. They send follow-up mailings and attend state mathematics meetings to give talks about the examination in order to encourage more schools to participate. The Directors receive no financial compensation for their work. The CAMC recognizes these individuals for their outstanding dedication to the profession of mathematics educators.

Special recognition is given for the work of the AMC 8 and CAMC committee members. They devote considerable time, under the direction of Bonnie Leitch (AMC 8 Chair) and Elgin Johnston (CAMC Chair), reviewing examination policy, proposing problems, and developing the examination. The contributions of our sponsors and donors are hereby recognized. The significance of the examination is greatly enhanced by their continued support.

XI. CONTRIBUTIONS OF THE UNIVERSITY OF NEBRASKA

The AMC office has been located at the University of Nebraska in Lincoln since 1970. For the past 34 years the University has made significant contributions in support of the American Mathematics Competitions including providing utilities, office space and the use of university facilities.

Report Of The Director continued

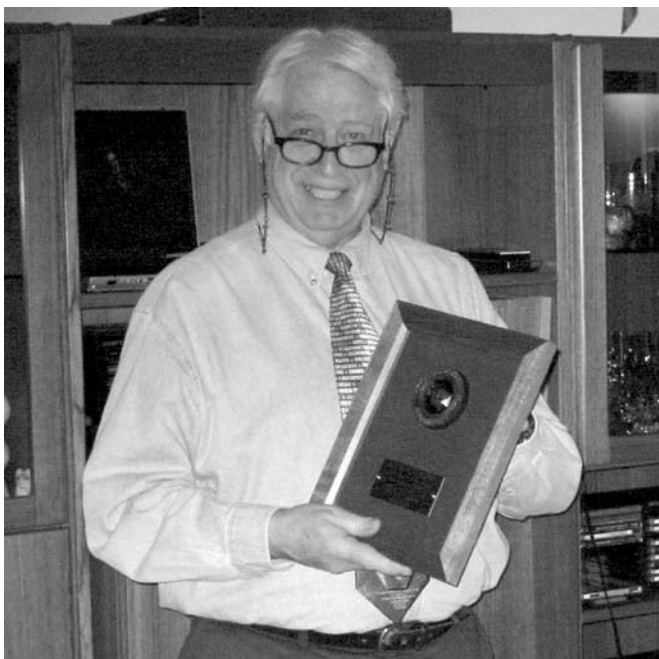

XII. FINAL COMMENTS

I welcome and appreciate your comments regarding this Summary and the procedures associated with the AMC 8.

Dick Gibbs with Plaque

Dick Gibbs retired after serving for two terms as Chair of the CAMC. He will be missed.

MESSAGE FROM THE AMC 8 CHAIR

Dear Teachers and Parents,

Thank you for the opportunity to share the 2003 AMC 8 Contest with your children. We hope that the experience will be a window into the world of mathematical excellence and fun.

More than forty math teachers and professors across the nation have worked for over a year to create the forty-minute contest your children wrestled with. We try to include puzzle-challenging, even curious and humorous problems in our

zling,
25-item mix.

Activities like our contest allow and encourage students to strive and excel in an academic sphere. The contest is a rewarding experience where mathematical curiosity and skill are, we hope, stimulated. The series of contests sponsored by the American Mathematical Competitions is designed to inspire an interest in mathematics that will lead to academic success, scholarship and a rewarding career. Professionally and personally, competence in mathematics and mathematical understanding lead to success and an enriched life.

Of course, one of the best parts of the contest occurs right after your children have taken the test. Many times students' interest is highest then. We in the committee hope that you can use this opportunity to talk about math with your children. Use the alternate solutions to elicit creative approaches to the problems. Perhaps explain some new mathematical concepts to the younger middle school students who soon will be eighth graders. Talk about which problems were easier or harder for your children and why.

Finally, thank you for all you do daily to help your children reach their potential as people and as better mathematics students, no matter what their natural abilities. You are one of our nation's greatest resources for ensuring all children a rich and rewarding future by promoting knowledge and understanding.

MESSAGE FROM THE CAMC CHAIR

On behalf of The Mathematical Association of America's Committee on the American Mathematics Competitions, I want to thank each school's Contest Manager for administering the 2003 American Mathematics Contest 8 (AMC 8). The junior high contest was first given in 1985 when it was introduced as the American Junior High School Mathematics Examination (AJHSME); in 1999 the contest was renamed the AMC 8. Thus, 2003 marks

the 19th year that the exam has been given.

Many people work hard to make these exams possible. These include the State Contest Directors who make sure schools in their regions know about the exams; the outstanding staff in Lincoln, responsible for registration, printing, distributing, and scoring the exams, and communicating results; and the members of the AMC 8 Committee and AMC Advisory Panel who spend long hours composing problems, writing and rewriting problem statements and solutions, and monitoring the difficulty level of the exam. Special thanks are due Bonnie Leitch, the hard working AMC 8 Chair, who coordinates the exam creation efforts. I also want to thank the students for giving up part of their day to participate in the AMC 8.

The mission of the CAMC is to promote interest in mathematics among K-12 students and to identify mathematically talented students through a system of mathematical exams. Thus, although the exams are designed to expose students to important mathematical ideas and give students a valuable problem solving experience, it is even more important that students find the exams challenging and fun. We hope that students enjoy not only taking the exam, but also preparing for the exam with teachers and other students, and discussing the answers and different solutions afterwards.

We are always interested in ideas to help us better carry out our mission. The mathematics teachers in the schools are one of our most valued sources of ideas. We welcome any ideas you have that will help us improve the AMC 8 and help us reach more students. In addition, we have a particular need for junior high school teachers on the AMC Advisory Panel. If you are interested in contributing to our contests please contact me at the address given below, or visit us at the American Mathematics Competitions booth at this year's NCTM meeting.

THE SLIFFE AWARDS FOR DISTINGUISHED MIDDLE SCHOOL MATHEMATICS TEACHING

The Edyth May Sliffe Awards for Distinguished Junior High School Mathematics Teaching were determined following the analysis of the 2003 American Mathematics Contest 8 (AMC 8). The winners are listed on the next page followed by the schools and locations they represent.

These awards are the result of a bequest made to the Mathematical Association of America (MAA) by Edyth May Sliffe, a retired high school teacher of mathematics at Emeryville, California. She made this bequest for the purpose of giving awards to high school mathematics teachers whose teams have done well on the AHSME (AMC 12). Edyth Sliffe wanted to do this because her students had always done very well on the AHSME and received various honors, but she as a teacher had never received any recognition. She had always felt that such teachers should receive some awards.

In order to recognize Junior High School teachers as well, the MAA Sliffe Award Committee in 1994 approved the establishment of a new set of awards to begin in 1995. Five awards are given in each of the eleven regions associated with the AMC 8 to teachers of grade 8 or below. The selection of the award winners is determined by the following procedure:

The ranking of a school in a given year for the purposes of this Award is made on the basis of the sum of the three top student scores at the school. A list is prepared of those schools who ranked within the top one third of the schools within the region. For all those appearing in the lists for each of the past three years, the sum of the rankings of the schools are calculated for each region. For example, for the awards given following the 1996 AJHSME, the rankings of the schools in 1994, 1995, and 1996 were calculated for each region. The mathematics teacher whose name was listed on the Sliffe Award Nomination Form, of the eligible five top ranking schools, shall be declared the Edyth May Sliffe Award recipient for that region. A teacher can only win the award once.

The award winning teachers receive a certificate, a \$100 cash prize, a one-year membership in the National Council of Teachers of Mathematics, including a subscription to *Mathematics Teaching in the Middle School*, and Sliffe award pin.

This Award serves as an excellent illustration of how a single person, in this case, Edyth May Sliffe, can have a substantial positive influence nationwide by taking a decisive action to further a cause she strongly believes in.

SLIFFE AWARDS RECEPTION SAN ANTONIO, TEXAS -- APRIL 12, 2003

On April 12, 2003 a reception was held at the NCTM (National Council of Teachers of Mathematics) Spring Meetings, in San Antonio, Texas, for current and past recipients of the the Edyth May Sliffe Award for Distinguished Mathematics Teaching.

Sliffe Winners Attending Reception

The Winners present when the formal picture was taken were, front row: Kay Craig, Rhonda Naylor, Mona Izzo, Harriet Rubinstein, Jean Krusi, Patricia Hufford, Larry Zimmermann, Micalah Fogel, John Benson. Back row: Sam Baethge, Susan Clopton, Margaret Teuf, Andreas Eyriviades, Charlyn Shepherd, David Hankin, Danny Jaye, Leona Penner, Titu Andreescu, Dan Teague Ron Yavrinek.

AMERICAN MATHEMATICS CONTEST 10 AND AMERICAN MATHEMATICS CONTEST 12

The American Mathematics Contest 8 (AMC 8) is the first in a series of six contests that culminate in the United States of America Mathematical Olympiad (USAMO) and the International Mathematical Olympiad (IMO).

The second contest in this series is the American Mathematics Contest 10 (AMC 10), started in 2000. Many schools had requested a mid-level test, one that would target a student between the former AJHSME and the former AHSME (which was written, generally, for 11th and 12th graders). The restructured AHSME became two new contests with new names. The AMC 10 is designed for students who have not had, for example, trigonometry and logarithms, but are taking a formal course in Geometry. It is a 25 question, 75-minute examination. In its first year 109,950 students took part.

The third contest is the American Mathematics Contest 12 (AMC 12). This examination has been administered for 55 consecutive years. The AMC 12 covers high school mathematics excluding calculus. It is a 25-question, 75-minute examination.

The purpose of these two contests is to spur interest in mathematics and develop talent through the excitement of friendly competition at problem solving in a timed format. In order to challenge students of all grade levels and with varying talents, the problems range from easy to extremely difficult.

These tests, although written for high school students (grades 9-12), are also recommended for students at lower grade levels who possess unusual mathematical ability. Consequently, all schools that participated in the AMC 8 were sent a 2004 AMC 10/12 Invitation Brochure. Schools will have a choice of dates, since the AMC 10/12 Contest A is scheduled for Tuesday, February 10, and the AMC 10/12 Contest B is scheduled for Wednesday, February 25. Interested schools may elect to take both Contest A and B.

Students who have not taken the AMC 10/12 previously should look at copies of prior year exams in order to set reasonable goals for themselves on their first attempt. A list of available prior year examinations and the ordering procedure can be found at the AMC website www.unl.edu/amc.

QUOTATIONS

We are grateful to those who sent comments regarding the AMC 8. A representative sample is given below.

ALABAMA

My students enjoy the challenge of the exam. Thanks for your efficiency and for the pins & certificates.

ARIZONA

As long as I can get funding, I will make sure my school participates.P.S.
- Thanks for the large print practice problems in back of handbook!! P.P.S.
- Great assortment of problems!!

CALIFORNIA

The eMail notification of dates/deadlines is great!

The problems are always challenging and interesting. They align with the topics we are supposed to cover in 7th & 8th grade, so keep up the good work.

COLORADO

We enjoy participating in the AMC contests! We will participate again next year! Thanks!

FLORIDA

The students love to compete and gives them a sense of success in higher level math!

I think the contest gave the students a different and better outlook on Math. They realized they could think “outside the box” without having to be coached every step of the way. We practiced in groups and thoroughly enjoyed the challenge.

GEORGIA

This is our first year to participate in the contest. I have enjoyed going over the practice problems with our math classes and seeing them think through the questions. Thanks for making it available.

Fun Test. Great variety of questions and levels.

ILLINOIS

Fun and exciting opportunity for staff and students.

I have always been able to give the test on the assigned day but it is nice to have an option in case something came up.

LOUISIANA

This is our first year. We are using this test as a way to encourage our best students to compare themselves to outside students and to raise others by showing them how good they can be at junior-high level. This is a multi-year plan.

Quotations (continued)

MICHIGAN

Parent/Guardian letter was a great addition to our packet, as well as the practice problems.

NEBRASKA

Always a great contest. The summary helps me key in on strengths/weaknesses of a particular class. I use it for a Math Counts Coaching tool, too.

NEW JERSEY

Everything is well run and efficient.

NEW YORK

The students, as well as teachers, enjoy the contest. We have participated for years!

My students were so nervous and excited! They tried their best even though they are mostly 6th graders. We're looking forward to more contests! Thank you.

NORTH CAROLINA

Thank you for the prompt feedback. We are indeed thrilled with this our first-year efforts. We look forward to working with your supportive, outstanding program.

We Love it! 😊

The test is extremely challenging. We will definitely register again next year.

OHIO

I appreciated receiving sample questions and previous contests. This is our first year to participate.

OREGON

Thanks for another wonderful test. The problems are well-posed, and of just the right level of difficulty. The grading is always quick, and the certificates mean a lot to the students. Keep up the good work.

PENNSYLVANIA

Stimulating Contest. The kids actually enjoyed it -- and also felt they were part of a national secret when instructed they must maintain academic integrity and not discuss the test questions until Nov. 25th.

SOUTH CAROLINA

The students enjoy seeing their name in print in a book. This is much more personal than on a computer in a file stored somewhere! The students enjoy reading about other states, other schools -- in fact a student who recently moved here checked to see his "friends" in the book. I bet his name will be in it this year.

TENNESSEE

Quotations (continued)

The Gardner School, Vancouver, Washington

This is a great contest and the format is excellent.

I like receiving the printout on how each of my students performed.

TEXAS

I feel this test is important for our kids because we do not give timed tests. This provides our students with a valuable experience in testing and different kinds of problems.

The problems are challenging to students. An overall view of mathematics in all angles. An inspiration for students to learn mathematics. Administration of the AMC 8: Excellent (A plus grade).

VIRGINIA

I will continue to give this test. I believe it is a great tool of preparation for my student's future.

WASHINGTON

You guys always do a fine job. Bring on the AMC-10!

I like getting the detailed analysis of what percent of my students made which errors. The error analysis helps me identify topics that need more attention.

AMERICAN MATHEMATICS CONTEST 8 EXAMINATION COMMITTEE

CHAIR

(Writes AMC 8 examination and solutions)

Ms. Bonnie Leitch, New Braunfels, TX 78130

Prof. Steven Dunbar, Am. Mathematics Comp., UNL, Lincoln, NE
68588-0658

Dr. D. Faires, Youngstown State University, Youngstown, OH 44555

Dr. M. Raub Hunt, Strongsville, OH 44136

Prof. E. Johnston, Iowa State University, Ames, IA 50011

Prof. N. Kuenzi, University of Wisconsin-Oshkosh, WI 54901

Ms. S. Lazarnick, Bekkows Free Academy, St. Albans, VT 05478

Mr. J. Lee, Chesterfield, OH 63017-7412

COMMITTEE ON THE AMERICAN MATHEMATICS COMPETITIONS

CHAIR

(Sets policy for AMC 8 and other AMC tests)

Prof. E. Johnston, Iowa State University, Ames, IA 50011

DIRECTOR OF AMC

S. Dunbar, Am. Mathematics Comp., UNL, Lincoln, NE 68588-0658

Prof. R. Bailey, Niagara University, NY 14109

Prof. G. Bergum, South Dakota State University, Brookings, SD 57007

Prof. T. Clymer, 126 SW 148th St. C100-18, Seattle, WA 98166-1984

Mr. M. Doherty, INFORMS, Linthicum Heights, MD 21090

Prof. N. Elkies, Harvard University, Cambridge, MA 02138

Dr. D. Faires, Youngstown State University, Youngstown, OH 44555

Mr. B. H. Graff, Esq., A.S.P.A., Arlington, VA 22203-1619

Ms. J. Hawkins, Charles W. Flanagan H.S., Pembroke Pines, FL 33028

Prof. B. Hearsey, Lebanon Valley College, Annville, PA 17003-0501

Prof. John Holcomb, Cleveland State University, Cleveland, OH 44115-
2214

Prof. J. L. Houston, Elizabeth City St. Univ., Elizabeth City, NJ 27909

Dr. M. Raub Hunt, Strongsville, OH 44136

Prof. A. M. Jaffe, Harvard University, Cambridge, MA 02138-2901

Mr. B. Kelly III, National Security Agency, Fort Mead, MD

Ms. B. Leitch, New Braunfels, TX 78130

Prof. W. J. Lewis, University of Nebraska, Lincoln, NE 68588-0323

Ms. M. J. Messenger, River Hills High School, Clarksville, MD 21029

Mr. C. Pence, Jr., Buffalo Grove, IL 60089

Dr. D. Savitt, Mathcamp/MathPath, Montreal, PQ, Canada H3A 2K6

CAMC EXECUTIVE COMMITTEE

(Advises Director for AMC 8 and other AMC tests)

Prof. Titu Andreescu, University of Wisconsin, Whitewater, WI 53190

Prof. Steven Dunbar, Am. Mathematics Comp., UNL, Lincoln, NE
68588-0658

Dr. D. Faires, Youngstown State University, Youngstown, OH 44555

Mr. D. Hankin, Hunter College HS, New York, NY 10128

Prof. E. Johnston, Iowa State University, Ames, IA 50011

Ms. B. Leitch, New Braunfels, TX 78130

Mr. Daniel Teague, North Carolina Sch of Sci & Math, Durham, NC 27705

ADVISORY PANEL

SCHOOL HONOR ROLL UNITED STATES

This School Honor Roll includes AMC 8 Schools who's team scores (sum of the top three student scores) are 66-75.

Team Score	School	City	State
68	Louis Pizitz MS	Birmingham	AL
69	The Altamont School	Birmingham	AL
72	Randolph School	Huntsville	AL
73	Alice Vail Middle School	Tucson	AZ
68	Fairmont Private Schools	Anaheim	CA
70	Hyde Junior High School	Cupertino	CA
68	The Rhoades School	Encinitas	CA
74	Hopkins Junior High School	Fremont	CA
73	The Nueva School	Hillsborough	CA
67	Dwyer Middle School	Huntington Beach	CA
66	Harvard Westlake School	Los Angeles	CA
73	Mirman School	Los Angeles	CA
66	Bentley School	Oakland	CA
67	Jordan Middle School	Palo Alto	CA
71	Palos Verdes Intermediate School	Palos Verdes Estates	CA
71	Chadwick School	Palos Verdes Penn	CA
69	Alvarado Intermediate School	Rowland Heights	CA
74	Miller Middle School	San Jose	CA
73	The Harker School	San Jose	CA
69	Redwood Middle School	Saratoga	CA
71	South Pasadena Middle School	South Pasadena	CA
70	EPGY-Stanford University	Stanford	CA
72	Cupertino Middle School	Sunnyvale	CA
71	De Portola Middle School	Tarzana	CA
68	Lynn (Bert M.) Middle School	Torrance	CA
71	Summit Middle School	Boulder	CO
73	Challenge School	Denver	CO
70	Boltz Junior High School	Fort Collins	CO
68	Smith Middle School	Glastonbury	CT
73	Middlebrook Middle School	Wilton	CT
66	Alice Deal Junior High School	Washington	DC
69	Independence School	Newark	DE
67	Sawgrass Springs Middle School	Coral Springs	FL
70	C. W. Ruckel Middle School	Niceville	FL
71	Jackson Heights Middle School	Oviedo	FL
73	Fairview Middle School	Tallahassee	FL
67	Wilson Middle School	Tampa	FL
